

Power Decisions: The Science of Making Decisions That Make a Difference

Introduction of Dr. Paul Schempp

[PLEASE READ SLOWLY]

Our success in business and in life is largely dependent on our ability to make good decisions—and avoid dreadful ones. But how do we avoid making poor choices? How do we consistently make good decisions? And how do we make truly great decisions when they matter most?

Those questions will be answered today. Our speaker is an Expert on Developing Expertise.

As a University of Georgia research professor, he studies top decision makers from all walks of life.

As a consultant, he helps leading sport and business organizations turn people with potential into outstanding decision makers.

As a speaker, he has inspired individuals and organizations with over 300 programs in 32 countries on 4 continents.
